

Scan QR Facility · Demo QR Sheet

Printable codes for the prototype presentation · /scan-qr

Print the next pages and cut the cards along the dashed lines, or show them on a second screen. Each code resolves to the demo records built into the prototype. Scan with the phone camera, or type the code into "Can't scan? Enter the code".

SERVICES ON FILE

2 + 1 mismatch tag

CAMERA NEEDS

HTTPS or localhost

1 QR Matching — match

1. Home → **QR Matching**. Scan **TT-2026-000123** → Continue.
2. Scan the second QR **TAG-2026-000123** → **Check match** → "Match Confirmation".
3. Any two documents of Juan Dela Cruz match (e.g. **ET-2026-000123** with **WB-2026-000123**).

2 QR Matching — mismatch

1. Scan **TT-2026-000123**, then **TAG-2026-000124** or **TAG-2026-000456**.
2. The result is **Mismatch** with "Stop & Notify Supervisor".
3. Scanning the same QR twice is rejected: "That is the same QR".

3 Scan QR to Process — retrieval trip

1. Home → **Scan QR to Process**. Scan **TT-2026-000123** (or its toe tag) → Continue.
2. Departure check: scan **TT-2026-000123**, then **TAG-2026-000123** → Confirm match. Try **TAG-2026-000456** here to show the **MISMATCH** warning.
3. Toe tagging: scan **TAG-2026-000123** → photo → review → send OTP → enter **123456**.
4. Transfer to chapel: depart → arrive → OTP **123456**.

4 Scan QR to Process — embalming

1. Home → **Scan QR to Process**. Scan **ET-2026-000123** → Continue.
2. Matching: scan **ET-2026-000123**, then **TAG-2026-000123** → Confirm match.
3. Embalming summary → scan the casket barcode **CK-2026-000123** → casketing → photo → OTP **123456**.

5 Casket Lookup

1. Home → **Casket Lookup**. Scan the casket barcode **CK-2026-000123** → **View details**.
2. Shows the deceased (name, birth, death, casket, family contact) and the room (Chapel 3 · St. Joseph, viewing, interment).
3. **Scan another casket** → **CK-2026-000124** shows Rosario Magbanua in Chapel 5 · St. Therese.

6 Scan QR to Process — outside chapel viewing

1. Home → **Scan QR to Process**. Scan the viewing trip ticket **TT-2026-000125** → detected as **Outside viewing trip**.
2. Casket matching: scan **CK-2026-000124** first to show the **MISMATCH** (wrong deceased, trip blocked).
3. Scan the right casket **CK-2026-000123** → **Confirm match · proceed to trip**.
4. Trip to viewing venue: depart the chapel → arrive at the residence → OTP **123456**.

Codes on this sheet were decoded back with the same zxing reader the app uses before printing.
